

FUTURE FOCUS

LABS

'We are looking forward to exploring innovations in the mining sector with Cornwall businesses and our academics. An opportunity to share world class technology and ideas'

– Jaime Tinker – University Of Exeter

LAB DATES

3rd May 2019

5th July 2019

6th September
2019

OVERVIEW OF TOPIC

Mining Business Breakfasts

Overview/Background:

Camborne School of Mines would like to invite businesses for a series of labs around new technology and innovation in the mining sector, in a relaxed breakfast atmosphere each bi-monthly lab a different theme will be explored. An opportunity for businesses already in the sector and non-mining sector to network with academics. This may lead on to identifying opportunities for funding support and explore potential collaborations. The labs may also include a visit to Boulby Potash Mine, Yorkshire. The lab would be suitable for an the following businesses mineral processing firms, manufacture of special-purpose machinery and equipment for mining, consultancy companies and tech based businesses with an interest in diversifying into mining.

WHAT WILL BE COVERED?

The sessions will be a 2 hour bite session each and will be on the below topics;

Digital Mining: Can technology and data improve efficiency and reduce lifecycle costs?

Making Tailings Safe: What are the challenges in pushing exploration to remoter, riskier locations?

Modular Mining: How can we increase environmental standards of mining practices?

Rare Earths and Other Critical Metals: What research has been completed to date and new opportunities?

The format will be series of 4 mini talks with speakers from Cornwall businesses and academics, there will be time for discussions and networking after the speakers. Please book using the following link;
